TABLE OF CONTENTS

v. 20-21

NUMBER 1, JUNE 1960

COELHO, R. R., GOODMAN, J. W. and BOWERS, M. B., Chemical studies of the satellite cells of the squid giant nerve fiber 1
KILLE, R. A., Fertilization of the lamprey egg. 12
MUNDKUR, B., Electron microscopical studies of frozen-dried yeast. I. Localization of polysaccharides 28
THORELL, B. and CHANCE, B., Microspectrography of respiratory enzymes within the single, mammalian cell under different metabolic conditions 43
LOWENSTEIN, L. M., The effect of albumin on osmotic hemolysis. 56
JOHNSON, B. F. and JAMES, T. W., Alteration of cellular constituents by incubation temperature 66
St. AMAND, G. A., ANDERSON, N. G. and GAULDEN, M. E., Cell Division. IV. Acceleration of mitotic rate of grasshopper neuroblasts by agmatine. . 71
BAIRATI, A. and IURATO, S., The ultrastructural organisation of "Plana semilunata" 77
TYTELL, A. A. and NEUMAN, R. E., Growth response of stable and primary cell cultures to L-ornithine, L-citrulline and L-arginine 84
RODKIEWICZ, B., Measurement of desoxyribose nucleic acid by Feulgen-photometry in nuclei of roots of diploid and trisomic hyacinths 92
STACEY, R. S. and WILDY, P., Quantitative studies on the absorption and elution of methylene blue 98
BERRY, R. E. and MAYER, D. T., The histone-like basic protein of bovine spermatozoa 116
KAWAMURA, N., Cytochemical and quantitative study of protein-bound sulfhydryl and disulfide groups in eggs of *Arbacia* during the first cleavage . 127
ORSI, E. V., A phase-contrast microscopy chamber for virus-infected tissue cultures 139
CHAYEN, J., The localization of deoxyribose nucleic acid in cells of the root meristem of *Vicia faba* 150
CHAYEN, J. and BENFIELD, A. H., The use of homogenization procedures for extracting nuclei from plant cells 172
CHAYEN, J. and DENBY, E., The distribution of deoxyribonucleic acid in homogenates of plant roots 182

BRIEF NOTES

PALMER, C. G., LIVENGOOD, D., WARREN, A. K., SIMPSON, P. J. and JOHNSON, I. S., The action of vincaleukoblastine on mitosis *in vitro* 198
BIRNS, M., The localization of acid phosphatase activity in the ameba, *Chaos chaos* 202
STANSLY, P. G. and CHU, M. W., Concerning acid extraction of cytoplasmic RNA 206

Pogo, A. O., Pogo, B. G. T. and Cordero Funes, J. R., Correlation between deoxyribonucleic acid and volume in liver cells nuclei during post-natal growth 208
Montezuma-de-Carvalho, J. and Crawley, J. C. W., The fixation of chromosomes for electron microscopy 211
Atkin, N. B., A single heteropycnotic chromosome in a human tumour. . . 214
Perry, R. P., On the nucleolar and nuclear dependence of cytoplasmic RNA synthesis in HeLa cells 216
Rixon, R. H. and Whitfield, J. F., Comparison of the effects of ultraviolet light on multiplication of normal and X-ray resistant mouse cells . . 220
Solomon, J. B., Onset of the ability of spleen cells to evoke the 'graft versus host' reaction in chicken 223
Abdul-Nour, B. and Webster, G. C., Biological activity of reconstituted ribosomes 226
Smith, J. R., Burford, T. H. and Chiquoine, A. D., Electron microscopic observations of the ventricular heart muscle of man obtained by surgical biopsy during thoracotomy 228
Wrba, H., Ripoll-Gómez, M. and Ranz, H., Die stoffwechselsteigernde Wirkung des Serums hepatektomierter Ratten auf Leberkulturen 232
Pak Poy, R. F. K. and Bentley, P. J., Fine structure of the epithelial cells of the toad urinary bladder 235
Berman, I. and Kaplan, H. S., The functional capacity of mouse bone marrow cells growing in diffusion chambers 238
Guttes, E. and Guttes, S., Pinocytosis in the myxomycete *Physarum polycephalum* 239
Whitfield, J. F. and Rixon, R. H., Some properties of radiation resistant derivatives of L strain mouse cells 242
Ball, W. D. and Auerbach, R., *In vitro* formation of lymphocytes from embryonic thymus 245
Stich, H. F. and Hsu, T. C., Cytological identification of male and female somatic cells in the mouse 248
Amano, M. and Leblond, C. P., Comparison of the specific activity time curves of ribonucleic acid in chromatin, nucleolus and cytoplasm . . . 250
Sorof, S., Young, E. M. and Fetterman, P. L., Electrophoretic distribution of derivatives of 2-acetyl-aminofluorene-9-^{14}C bound to soluble proteins of rat liver *in vivo* 253
Prop, F. J. A., Development of alveoli in organ cultures of total mammary glands of six weeks old virgin mice 256
Cerroni, R. E. and Goldstein, N. O., Quantitative biochemical and microspectrophotometric Feulgen DNA analyses on *Tetrahymena* cells treated with iron 258
Fujita, S. and Takino, T., Analysis of culture patterns of normal and leukemic bone marrows 262

NUMBER 2, August 1960

Braun, H., Elektronenoptische Untersuchungen an Zellen des Dünndarmepithels nach Röntgenbestrahlung 267

KESSEL, R. G., The role of cell division in gastrulation of *Fundulus heteroclitus* 277
SIRLIN, J. L. and JACOB, J., Cell function in the ovary of *Drosophila*. II. Behaviour of RNA 283
CROSBY LONGWELL, A. and SVIHLA, G., Specific chromosomal control of the nucleolus and of the cytoplasm in wheat 294
BASSI, M., Electron microscopy of rat liver after carbon tetrachloride poisoning 313
MILES, C. P., Morphology and functional relations of sex chromatin in cultured amnion cells 324
WILLIAMSON, D. H. and SCOPES, A. W., The behaviour of nucleic acids in synchronously dividing cultures of *Saccharomyces cerevisiae* 338
TOLMACH, L. J. and MARCUS, P. I., Development of X-ray induced giant HeLa cells 350
JENSEN, W. A., KAVALJIAN, L. G. and MARTINOT, S., The incorporation of ^{3}H-thymidine by developing root tip cells 361
KIMBALL, R. F., VOGT-KÖHNE, L. and CASPERSSON, T. O., Quantitative cytochemical studies on *Paramecium aurelia*. III. Dry weight and ultraviolet absorption of isolated macronuclei during various stages of the interdivision interval 368
BELL, E., Some observations on the surface coat and intercellular matrix material of the amphibian ectoderm 378
LENHOFF, H. M. and BOVAIRD, J., The requirement of trace amounts of environmental sodium for the growth and development of Hydra 384
SERRA, J. A., Why flagella and cilia have 1 + 9 pairs of fibres 395
PADILLA, G. M. and JAMES, T. W., Synchronization of cell division in *Astasia longa* on a chemically defined medium 401
ROSENBAUM, R. M. and WITTNER, M., The effects of hyperatmospheric oxygen concentrations on early cleavage in the sand dollar, *Echinarachnius parma*: Studies with an optical-pressure vessel 416
KUCHLER, R. J., MARLOWE, M. L. and MERCHANT, D. J., The mechanism of cell binding and cell-sheet formation in L strain fibroblasts 428
SWARTZ, F., SAMS, B. F. and BARTON, A. G., Polyploidization of rat liver following castration of males and females 438
SOUDEK, D., The correlation between the growth of the cell and nucleolar secretion in *Basidiobolus ranarum* Eidam 447
RAUT HEBB, C. and WANG CHU, MING-YU, Reversible injury of L-strain mouse cells by trypsin 453
HALEVY, S. and AVIVI, L., Effect of triiodothyronine on glucose metabolism in tissue culture 458

NUMBER 3, SEPTEMBER 1960

RAPPAPORT, C., POOLE, J. P. and RAPPAPORT, H. P., Studies on properties of surfaces required for growth of mammalian cells in synthetic medium. I. The HeLa cell 465
RAPPAPORT, C., Studies on the properties of surfaces required for growth of mammalian cells in synthetic media. II. The monkey kidney cell . . 479
RAPPAPORT, C., Studies on the properties of surfaces required for growth of mammalian cells in synthetic media. III. The L cell, strain 929 495

MOORE, R. D. and SCHOENBERG, M. D., Studies on connective tissue VI. The cytoplasm of the fibroblast 511
LACHANCE, L. E. and STEFFENSEN, D. M., The influence of carbon dioxide on *Tradescantia* chromosome aberrations induced by radiations of different ion densities 519
ZIMMERMAN, A. M., Physico-chemical analysis of the isolated mitotic apparatus 529
TEIXEIRA-PINTO, A. A., NEJELSKI, L. L. JR., CUTLER, J. L. and HELLER, J. H., The behavior of unicellular organisms in an electromagnetic field . . . 548
KOJIMA, M. K., Acceleration of the cleavage of sea urchin eggs by vital staining with neutral red 563
BERMAN, M. and SCHOENFELD, R. L., A note on unique models in tracer kinetics 574

BRIEF NOTES

BERGNER, P.-E. E., On the solution of the compartmentalized tracer system . 579
RAPPAPORT, C. and BISHOP, C. B., Improved method for treating glass to produce surfaces suitable for the growth of certain mammalian cells in synthetic medium 580
MOUTSCHEN-DAHMEN, J. and M., VERLY, W. G. and KOCH, G., Autoradiograms with tritiated myleran 583
SADHUKHAN, P. and DE, M. L., Graphical method for estimation of thickness of biological samples 589
BERNELLI-ZAZZERA, A., CARADONNA, D. and CASSI, E., Studies on the inhibition of protein synthesis in vacuolated rat liver cells 592
LEEMAN, L., La teneur en ADN des noyaux de la médullo-surrénale du rat blanc splanchnicectomisé au cours du stress 596
BHASKARAN, S. and SWAMINATHAN, M. S., Metaphase chromosome length and DNA content in relation to polyploidy in *Triticum* species . . . 598
STRAUS, W., Localization of intravenously injected horseradish peroxidase in the cells of the convoluted tubules of rat kidney 600
BEAMS, H. W. and ANDERSON, E., Fine structure of the so-called segregation apparatus in erythrocytes of *Necturus* 604
PHILLIPS, H. J., ANDREWS, R. V. and SKANK, V., Expressing tissue culture respiration 607
DAVIDSON, D. and ANDERSON, N. G., Chromosome coiling: Abnormalities induced by polyamines 610
MOORHEAD, P. S., NOWELL, P. C., MELLMAN, W. J., BATIPPS, D. M. and HUNGERFORD, D. A., Chromosome preparations of leukocytes cultured from human peripheral blood 613
SCHWEIGER, H. G. und BREMER, H. J., Nachweis cytoplasmatischer Ribonukleinsäure-Synthese in kernlosen Acetabularien 617
GRIFFIN, J. L. and ALLEN, R. D., The movement of particles attached to the surface of amebae in relation to current theories of ameboid movement 619
CLEVER, U. und KARLSON, P., Induktion von Puff-Veränderungen in den Speicheldrüsen-Chromosomen von *Chironomus tentans* durch Ecdyson . 623

SCHNEIDER, R. M. and PERSON, P., The isolation of submaxillary gland acini and duct segments 627
PUMPER, R. W. and ALFRED, L. J., Growth phases of mammalian cells propagated in a serum-free medium 630
CATALANO, P., NOWELL, P., BERWICK, L. and KLEIN, G., Surface ultrastructure of tumor sublines differing in adhesiveness 633
NEGRONI, G., Difference in cell susceptibility to Mill Hill polyoma virus (M.H.P.) in monolayer cultures of mouse tissues 636
PATTEN, JR., S. F., Renewal of the intestinal epithelium of the urodele . . 638
BEN-OR, S. and DOLJANSKI, F., Single-cell suspensions as tissue antigens . . 641
PILERI, A., MARAINI, G. and GAVOSTO, F., Interrelationship between RNA and protein metabolism in human normal bone marrow cells 645
STEVENS, C. D. and TURNER, M. E., Effect of 3,3-dimethyl-1-phenyltriazene on the rate of cleavage of *Arbacia* at several pH-values. 647
PHAN, T. T. and BENDER, M. A., Survival of mouse bone marrow cells frozen and thawed in solutions of amino acids 651
MORGAN, W. S., VON DER DECKEN, A. and HULTIN, T., Amino acid incorporation into interior protein sites by purified rat liver systems. 655
KIHLMAN, B. A., The radiomimetic effect of N-nitroso-N-methyl-urethan in *Vicia faba* 657
ZETTERBERG, G., The mutagenic effect in *Ophiosoma multiannulatum* of N-nitroso-N-methyl-urethan 659
